Peraton

A Next Generation National Security Company

Peraton

Vision & Mission

VISION

To be the company national security customers consistently rely on

- to solve their **most daunting challenges,**

- to create novel solutions supporting their **most vital missions,** and

- to manage their **most valued assets**

MISSION

To protect and promote freedom around the world, by:

Securing our future
Connecting our world
Safeguarding our enterprise
Protecting our borders
Enabling commerce
Enhancing human knowledge
Protecting our citizens

Core Values Formed a Critical Foundation for Success

HONOR
Honor those we serve

We do not take lightly the responsibility we have assumed in supporting our national security

Our armed forces—Soldiers, Marines, Sailors, Airmen, Guardians, and Coast Guardsmen—have the courage to show up, to leave their families for something bigger than themselves. What they do for our nation is something bigger than ourselves, and through their services, we will pass on to our children the world's greatest nation, just like the one we got from those who gave so much before them.

TEAM
Maintain selflessness for the team

We give first to the team and expect nothing in return

Team success breeds personal success. We act for the team first, and for individuals, afterwards. Team is the *sine qua non* of mission and company success.

TRUST
Operate with integrity and trust

We demand trust in every way from our leaders and our employees

From the quality of our services, to the way in which we make decisions, customers and partners must be able to count on our trust. Trust is the currency of leadership, the pulse of a company, and the motto for a nation. We must trust each other, and our customers must trust us.
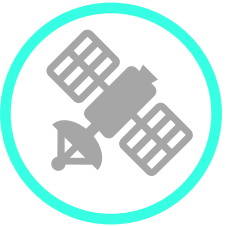

RESPECT
Treat others with respect

We treat each other with courtesy, dignity and respect

We encourage diversity, inclusion, and the value that is generated from disparate backgrounds and experiences.

INNOVATION
Constantly innovate

We show initiative and creative thinking

We challenge the status quo, embrace change, and solve problems through innovation, agility and creative thinking. We will engage in open debate, explore novel solutions, and continuously seek to better ourselves.

EXCELLENCE
Deliver excellence in value and capability

We work relentlessly to obtain the highest quality results

We strive for excellence through continuous improvement and flawless execution.

Peraton
