- The State of Hawai'i Office in Beijing (SHOB), in partnership with Hawai'i Tourism China (HTC), successfully carried out its inaugural China Travel Mission from May 27 to May 31 at the ITB (Internationale Tourismus-Börse) Shanghai, followed by a Beijing Industry Networking Event on May 31 at the U.S. Embassy in Beijing. HTC's goal was to reconnect local stakeholders and island chapters with China's outbound industry partners, travel media, and social influencers in the post-pandemic era, while also identifying emerging travel trends and new opportunities.

The mission resulted in over 150 agency connections and 114 meetings at ITB Shanghai. HTC further strengthened relationships by hosting a Shanghai VIP networking dinner, attended by 20 influential industry leaders, including representatives from Japan Airlines, Asiana Airlines, ANA, Spring Airlines, and major agencies such as Trip.com, LY.com, Tuniu.com, and Jinjiang Travel.

In Beijing, 56 agencies participated in the trade meeting, and 15 key industry leaders attended the VIP dinner. Notable attendees included representatives from the U.S. Embassy in Beijing, HNA Group, Asiana Airlines, Caijing Media, SparkleTour, Mafengwo, and others. These interactions helped forge strong connections, generating interest in future collaborative packages and events.

The mission also included a productive meeting with Fangda Group, the parent company of HNA Group, alongside our legislators, HTA, and HTC. During this discussion, potential opportunities for new non-stop and stopover routes were identified, and efforts were initiated to develop a systematic approach to secure flight approval rights.

Both sides acknowledged that Hawai'i coffee, as a signature U.S. agricultural product, was highly appreciated by Chinese consumers and held significant market potential. However, several challenges were identified, including the limited and uncertain production capacity of Kona coffee and the restricted quantities available for export to mainland China. Additionally, tariff barriers remained a significant obstacle, as Hawai'i coffee was subject to retaliatory tariffs on U.S. agricultural products, which led to higher overall prices. Both parties agreed on the need to intensify efforts to raise consumer awareness and appreciation of Hawai'i coffee in China.

The HCA planned to organize a delegation to China in May 2025, while SHOB planned to lead a group of Chinese buyers to Hawai'i in November 2025 for the Kona Coffee Festival. SHOB continued collaborating with the USDA, ATO, and other official institutions to strengthen partnerships between Hawai'i coffee estates and key industry stakeholders.

Ms. Emily Scott, Director of the Agricultural Trade Office (ATO), along with Mr. Eric S. Mullis, Agricultural Specialist, and Ms. Angie Han, Marketing Specialist from the U.S. Embassy in Beijing, visited SHOB to discuss promoting Hawai'i coffee in China

- December 3: SHOB met with Director General Liu Quan, Director Song Yueping, and Vice Director Zhang Peipei from the International Communication and Cooperation Bureau of the Chinese Ministry of Culture and Tourism (MCT) in Beijing. As SHOB was registered with this government department, this marked the first meeting since Executive Director Dennis Suo assumed his role. The discussion focused on strategies for tourism development, particularly efforts to attract more Chinese visitors to the Hawaiian Islands and encourage Hawai'i residents to explore various provinces and cities in China. The meeting also addressed MCT's support for restoring and developing non-stop flights between Hawai'i and China. Additionally, plans for the 40th Anniversary of the Hawai'i-Guangdong Sister-State Relationship ceremony in 2025 were discussed, with an emphasis on seeking MCT's support for the event.
